

I benefit from listening to XM Satellite Radio along with it's traffic and weather channels. Satellite radio provides me with a variety and quality of programming which is simply not available elsewhere. I choose to pay for this service and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve. Thank you for your attention.
